Notification of the insulator material change

Regarding our DC jacks, we had been using a bakelite for the insulator. However, due to the aging of the tooling, production has been affected. Therefore, we made a new tooling this time. Accordingly, the insulator material was changed from bakelite to PBT with glass. The part number will be changed due to the change in insulator and color, but there will be no change in electrical performance and soldering conditions.

Current model
(Insulator material: Bakelite)

New model
(Insulator material: PBT)

Current model no.	New model no.	Insulator color
MJ-10	MJ-10A	White
MJ-11	MJ-11A	Black
MJ-12	MJ-12A	White
MJ-13	MJ-13A	White
MJ-179	MJ-179A	White
MJ-180	MJ-180A	Black
MJ-181M	MJ-181MA	White
MJ-182M	MJ-182MA	Black
MJ-065M	MJ-065MA	White
MJ-181MS	MJ-181MSA	White
MJ-182MS	MJ-182MSA	Black

Current model no.	New model no.	Insulator color
MJ-19	MJ-19A	White
MJ-20	MJ-20A	Black
MJ-10LR	MJ-10LRA	White
MJ-11LR	MJ-11LRA	Black
MJ-40	MJ-40A	White
MJ-41	MJ-41A	White
MJ-42	MJ-42A	White
MJ-43	MJ-43A	White
MJ-44	MJ-44A	White
MJ-45	MJ-45A	White

The new model will be supplied as soon as the current model stock runs out.

Sincerely yours,

MARUSHIN ELECTRIC MFG, CO.,LTD
